Each year RAFFMA organizes the Summer Egyptian Art Workshop for Kids. This popular program draws in sixth-grade students from neighboring communities throughout San Bernardino County. The workshop includes many hands-on activities as well as educational lectures and special tours of the art museum’s extensive collection of Egyptian antiquities.

Participating students learn about Egyptian history, culture and art. Led by trained docents, children participate in a variety of projects. Students also learn basic art concepts, vocabulary and museum education that are then applied to each of their hands-on projects, for an integrated cross-curricular workshop.

The hard work, dedication and creative imagination of all the participants result in a fun learning environment, which opens an entirely new world of art to the young minds.
